I hold a degree in Political Sciences (specialisation in international relations and public policy), a Master in international economy and development policies and another Master in international consultancy and institutional development. I have been working for more than 20 year in topics related to Cooperation and Development policies: research and praxis. The main areas of expertise are related to support to civil society, strengthening public administration capacities, good governance, human rights, peace and mediation, sustainable development, gender approach and also the issues related to identification, design and project and programmes management, specifically strengthening civil society and institutional capacities and promotion of good governance. Some examples of my work are:

- Senegal: identification and monitoring of the cooperation program with the Regional Development Agency (ARDK public agency) of Kolda. Strengthening ARDK capacities and grassroots organisations in Kolda. Fodde, Radho, Adesc, etc.
- Reinforcing information and citizenship communication for a more participative and inclusive local and regional governance (Panos Institute of West-Africa. Senegal).
- Support and strengthening civil society's role in Senegal.

- Implementation and monitoring of 42 capacity building projects in a post-conflict context (Rwanda). International Red Cross Federation.

- Institutional capacity building of Palestinian National Authority. Gaza and West Bank. Support for good governance and actions for a socio-economic development.

Support UNRWA Palestine initiatives in the areas of education, health, social services, humanitarian assistance and advocacy for the improvement of living conditions in Gaza and West Bank-Palestine.

I have been a resident ex pat in Cameroon, Rwanda and Mauritania, and I have been on several missions in Senegal (5), Cameroon, Rwanda, Mauritania, Morocco, Lebanon, Palestine and Tanzania.
